Introduction of the international quality management system: OncoTherm Group

Anett Gàllné-Valyi
Quality Manager of Oncotherm Group

Objectives of the presentation:

- Show the basis of the permanent improvement of the efficacy of oncothermia combined with high quality and customer safety for the users and patients
- Keeping up the trust of our users and potential customers

Basic points:

- Oncotherm devices are produced by team working of highly qualified experts
- This unification of the German medical and technical knowledge with the general European manufacturing culture results in the following benefits:
  - Oncotherm achieves the globalization requests instead of the EU, strengthening its reputation and position
  - Oncotherm established a close cooperation between the research, medical knowledge, marketing, manufacturing and services
  - Oncotherm operates in the field of most common German quality management systems based on the above mentioned aspects

- Our devices are distributed over fifteen countries worldwide, using the German medical knowledge and procedural experience
- Most medical benefits are coming from the German hospitals and clinics, where the treatment quality is much higher than in other countries
- Our devices are designed and manufactured in a way to be used in all countries and all climates
- Our device is simple in use and can be used by all medical staff in the hospital
- The oncothermia methods are in the focus of our marketing policy. The devices are used in the hospital and the home environment, giving effective and painless treatment to the patient

Oncothermia marketing and manufacturing arms are working like an integrative unit that makes us strong and effective on the market.

Our quality management systems are satisfying the highest European medical standards. The production process of the device has ISO 9001 medical standard and it is approved by TÜV SÜD Product Service GmbH (Munich, Germany), who also certifies our products according to the European Medical Device Directive (medical device mark).

The business processes also have the highest standard (ISO 9001) granted by the TÜV SÜD Management Service GmbH (Munich, Germany), working for the standardised available processes to satisfy oncothermia users and potential customers.

TÜV SÜD as the largest notified body for medical devices in EU justifies the operation of our quality management systems and keeps it well controlled to fulfill every necessary European requirements.

OncoTherm Group is a marketing method which is in synergy with the devices and jointly presented on the market as a system. There is a 25 years hard work, experience and knowledge behind the OncoTherm System which certifies that this system has stood the test of time.

OncoTherm Group doesn’t follow the practice of the large globalized European companies who are transferring the manufacturing outside Europe. We do everything in Europe and preserve a high level production culture which is represented by our 25 years old company.

Conclusion:

The OncoTherm Group is a marketing method which is in synergy with the devices and jointly presented on the market as a system. There is a 25 years hard work, experience and knowledge behind the OncoTherm System which certifies that this system has stood the test of time.

OncoTherm Group doesn’t follow the practice of the large globalized European companies who are transferring the manufacturing outside Europe. We do everything in Europe and preserve a high level production culture which is represented by our 25 years old company.

"Product of Germany, Made in EU by German approval"
