Results

Germany

Conclusion

New paradigm is necessary for hypothermia in oncology. Necessity of oncotherm

Hypothermia definition: "The body is within while the physiologist is against us" (Dr. Jenck, [1])

Oncotherm changes the paradigm: "The body is against while the physiologist is within"

Hypothermia definition: "Reference points are needed" (Dr. Jenck, [2])

Oncotherm changes the paradigm: "Oncotherm is the gold standard, use the energy instead of temperature"

Conclusion

Oncotherm understands the updated demands of the modern oncotherm: Personalized treatment

Demand and condition is important

Preventive and follow-up procedures

Oncotherm is a convenient treatment for all the demands

Oncotherm is a new paradigm of the modern oncotherm.

Acknowledgement
